DETAILED ACTION

Election/Restrictions

Claims 1-54 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim.

Election was made **without** traverse in the reply filed on 10/22/2008.

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 55-64 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The algorithm of the applicant's claims is not statutory subject matter because it does not fall under any of the four statutory categories of invention. Furthermore if it is considered a process it fails to be associated with another statutory class of invention and further the algorithm does not transform the underlying subject matter to a different state or thing.

Cited Prior Art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- a. Tokunaga (USPAT 5,671,447) is cited to show a process/device.
- b. Van de Velde (USPAT 6,000,799) is cited to show a process/device.
- c. Nagano (USPAT 5,983,030) is cited to show a prior art process/device.
